**5.2 No Other Licenses.** By executing this Agreement, Member neither grants nor receives, by implication, estoppel, or otherwise, any rights under any copyright, patents or other intellectual property rights of the Eclipse Foundation or another Member.

**5.9 Amendment.** Member shall be given at least thirty (30) days prior written notice of the effective date of an amendment agreed to in accordance with the Bylaws. No amendments, modifications or additions to or deletions from this Agreement shall be binding unless accepted in writing by authorized representatives of the Eclipse Foundation and Member. Amendments shall be prospective only unless otherwise agreed to by the Member and the Eclipse Foundation.

**5.10 No Rule of Strict Construction.** Regardless of which party may have drafted this Agreement, no rule of strict construction shall be applied against either party. If any provision of this Agreement is determined by a court to be unenforceable, the parties shall deem the provision to be modified to the extent necessary to allow it to be enforced to the extent permitted by law, or if it cannot be modified, the provision will be severed and deleted from this Agreement, and the remainder of this Agreement will continue in effect.

**5.11 Counterparts.** This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but collectively shall constitute one and the same instrument.

### STRATEGIC DEVELOPER MEMBERS

Strategic Developer Members agree to lead an Eclipse Platform development project and commit, on a full time basis, a Developer (as defined below) who shall act as leader for this project (the “Project Lead”), and a minimum of seven (7) additional Developers assigned to work on this project or other Eclipse Platform development projects. Strategic Developer Members are also encouraged (but not required) to lead a Project Management Committee (“PMC” as defined in the Bylaws and the then current Eclipse Development Process), in which case one (1) of the eight (8) Developers shall be assigned to act as leader for the PMC (the “PMC Lead”). Strategic Developer Members agree to maintain their minimum of eight (8) Developers, assigned as above, in place and committed to the development of the Eclipse Platform at all times during which such entity is a Member, as defined in the Bylaws, and further agree that their assigned Project Lead shall lead the project in a manner consistent with technical plans and other policies established by the project’s corresponding PMC, and their assigned PMC Lead (if any) shall lead the PMC in a manner consistent with technical plans and other policies established by the Eclipse Management Organization.

“Developers” are professionals who by virtue of their skills and participation have a reasonable expectation of qualifying as Committers (as defined in Exhibit D) on the primary project to which they are assigned, or in the case of a Project Lead or PMC Lead have the appropriate leadership skills to lead the particular project or PMC respectively. Developers shall be defined to include persons with the following qualifications: (1) technical management experience; (2) software development skills; (3) systems integration skills; (4) testing skills; and (5) documentation skills.

The Eclipse Foundation is not authorized to issue managerial instructions to Developers, but is entitled to issue technical and organizational specifications to the extent necessary to execute the Roadmap (as defined in the Bylaws and the then current Eclipse Development Process). The Member has sole managerial authority over its employees. Nothing in this Agreement shall be construed as creating an employment relationship by and between any Member and the Eclipse Foundation.

EXHIBIT D  
Committer Member Process

Individuals who give frequent and valuable contributions to an Eclipse Platform development project, or component of a project (in the case of large projects), can have their status promoted to that of a "Committer" for that project or component respectively, in accordance with the project's corresponding Charter. A Committer has write access to the source code repository for the associated project (or component), and gains rights allowing them to affect the future of the project (or component). In order for an individual to become a Committer, another Committer for the project (or component) must nominate that individual. Once an individual is nominated, the existing Committers for the project (or component) will vote using the process and rules established in the project's corresponding Charter. When a new project is started, the corresponding PMC will nominate an initial set of Committers for approval by the Executive Director (or his delegates). Becoming a Committer is a privilege that is earned by contributing and showing discipline and good judgment. It is a responsibility that should be neither given nor taken lightly."

A Committer who is not already employed by a Member company must sign the Eclipse Foundation Membership Agreement in order to attain the rights and obligations of a Committer Member.
