Eclipse Europa Release

June 19, 2007

Europa – Bigger and Still On-time

- Eclipse Release Train for 2007
- By the numbers

2007	2006
▪ 21 projects	10
▪ 17 million LOC	7 million
▪ 25 organizations	15
▪ 19 countries*	12

Australia, Austria, Brazil, Bulgaria, Canada, China, Czech Republic, France, Germany, Ireland, Israel, Japan, Poland, Russia, Sweden, Switzerland, Turkey, UK, USA

Predictable Community

Why a release train

- Eclipse has grown; Consumers use many projects not just the Platform
- Inter-dependency between projects
 - Eclipse project teams are independent BUT the project code is inter-dependent.
- Alignment of version compatibility
- Remove latency between project releases

How did we make it happen?

- Architecture
 - Modular & Extensible Architecture vs Monolithic Release
- Governance
 - Projects remain independent
- Process
 - Open source development process
 - Frequent milestone releases

Eclipse - An Open Development Platform

What's New

- Tools for Developers
- Runtime and Frameworks

New: Equinox Services for Server Applications

- New server oriented services
 - HTTP service
 - Servlet bridge
 - Jetty support
- Allows for:
 - Incremental update of server function
 - Run multiple versions simultaneously
 - Individual configuration and management
 - Accommodate disparate application prerequisites
 - Class loading performance
- Result in small, fast, easy to deploy server applications

Modeling

- EMF now supports Java 5 Generics allowing for more flexible and sophisticated models
- MDT 1.0 Project release features support for UML diagrams
- GMF now supports RCP targets.

BIRT 2.2

- New Chart Types
- Dynamic Crosstab Report Item
- Support for Microsoft Word and Excel Output
- Web Service Data Source
- Easy Deployment and Integration

Application Frameworks

Mylyn 2.0 (Mylar) –Innovative Task Focus UI

- New collaboration features for task sharing between team members
- Instant access to tasks via offline support, reduced email inbox clutter via [Task List] change notifications
 - Support for Bugzilla, JIRA, Trac, Rally, CollabNet Enterprise Edition, IssueZilla, Mantis, CodeBeamer, XPlanner and others
- Task have become a seamlessly integrated part of developers' workflow and collaborative activities

Tools for Developers

Ruby IDE

- Support for context sensitive editing and code completion
- Integrated debugging of Ruby code
- Outline view for easy navigation
- Productivity wizards
- Framework for building other Ruby IDEs

Tools for Developers

CDT 4.0

- Easily extensible tool chain and build system
- More capable indexer: call scopes, templates, etc.
- Pre-built indices e.g., external libraries

Tools for Embedded Developers

SOA Tools

- BPMN* Modeler
- JAX-WS and SCA Java Development Support
 - Create, Debug and Deploy

Tools for Developers

*Business Process Management Notation

More Convenient Packaging

- Profiles specific packages
 - Java IDE
 - JEE IDE
 - C/C++ IDE
 - RCP SDK
- More convenient to download for end users

The screenshot shows the Eclipse Downloads page on the official website. The browser title bar reads "Eclipse Downloads - Mozilla Firefox". The main content area displays a list of four primary Eclipse packages and a section for third-party distros. On the right, there are sidebar panels for "Browse downloads" and "Popular projects". The bottom of the screen shows a Windows taskbar with various application icons.

Eclipse Downloads

To download Eclipse, select one of the four packages below or choose one of the third party Eclipse distros. You will need a Java runtime environment (JRE) to use Eclipse. All downloads are provided under the terms and conditions of the Eclipse Foundation Software User Agreement unless otherwise specified.

Get Eclipse

Package	Description	Platform
Eclipse Tools for Java Developers (88 MB)	The essential tools for any Java developer, including a Java IDE, a CVS client, XML Editor and Mylyn. Find out more...	Windows Linux Mac OSX
Eclipse Tools for Java Enterprise Developers (110 MB)	Tools for Java developers creating JEE and Web applications, including a Java IDE, tools for JEE and JSF, Mylyn and others. Find out more...	Windows Linux Mac OSX

 - Jakarta, November 29-30

Portal (Donald Smith)

The Foundation Portal

The Foundation Portal will:

- Help scale services provided by the foundation to our ever increasing membership
- Help consolidate and document our many processes
- Make it easier for members to manage disparate information

Your Call to Action

Keep an eye on your mail boxes as we roll out more and more functionality

Help us with feature suggestions and provide beta feedback

Example 1 – Committer Elections

- Chris Aniszczyk and Gunnar Wagenknecht's election as Phoenix Committer was done through the Foundation Portal
- Here's how it worked....

Example 1 – Nomination

- A Committer on a project logs into the portal and fills out a nomination form for a new committer....

Committer on technology.phoenix

Nominate a new committer [\[revert\]](#)

Name:

Email:

Mailing List:

Reason for Nomination: Here is where you describe the candidate's excellent record of contribution to the project. Cite the bugs (bug NNN or [NNN]) they have fixed (via patches); cite the newsgroup postings (urls to newsgroup archives) they have answered; cite the dev list design discussions (urls to mailing list archives) to which they have contributed.

[save](#) [explore](#)

Example 1 – Emails Generated

- Project Committers receive email notice of the nomination....

From: portal-noreply@eclipse.org Sent: Tue 30/01/2007
To: donald.smith@eclipse.org
Cc:
Subject: Please vote in the Committer election for Gunnar Wagenknecht

Donald Smith,
Denis Roy has nominated Gunnar Wagenknecht as a Committer on the technology.phoenix project. The reason given is as follows:

I'd like to nominate two new committers to the Phoenix team, specifically, to the PlanetEclipse component: Gunnar Wagenknecht and Chris Aniszczyk.

Example 1 – The Committers Vote!

- By clicking a link in the email, a committer can go vote in the election through the Portal...

A screenshot of a web browser window displaying the Eclipse Foundation portal at <http://127.0.0.1>. The page is titled "My Foundation". The left sidebar has links for "Committees", "Newsgroups", "Bugs", and "Articles". The main content area shows a nomination for "Committer on technology.bar" named "Karl Candidate". It includes a "Comments" section with placeholder text about voting +1, 0, or -1, and a "Vote" section with radio buttons for "+1 confirm", "0 abstain", and "-1 veto". Below the vote section are two buttons: "vote" and "explore". At the bottom, there is a "Molly Code Address" section with fields for "Address 1: North East", "City: Dullsville", "State/Province: Ohio", "Postal Code: 45101", and "Country: United States". A "[edit]" link is also present in this section.

Example 1 – Open and transparent...

- The vote is recorded to the committers...

From: phoenix-dev-bounces@eclipse.org on behalf of portal-noreply@eclipse.org
Sent: Wed 31/01/2007 9:03
To: phoenix-dev@eclipse.org
Cc:
Subject: [phoenix-dev] Donald Smith has voted +1 for Gunnar Wagenknecht's Committer status

technology.phoenix Committers,
Donald Smith has voted +1 for Gunnar Wagenknecht's Committer status.
Comments: Gunnar has helped me with several issues offline over the past year.

Example 1 – The last step...

- After the election, the process continues by asking the project lead to fill out the required forms

From: phoenix-dev-bounces@eclipse.org on behalf of portal-noreply@eclipse.org Sent: Thu 08/02/2007 10:28 AM
To: phoenix-dev@eclipse.org
Cc:
Subject: [phoenix-dev] Committer vote for Gunnar Wagenknecht has been approved by the PMC

technology.phoenix Committers,
The PMC has approved the vote for Gunnar Wagenknecht's full Committer status on the technology.phoenix project. The next step is for the project lead to fill out the online new committer form
http://www.eclipse.org/legal/committer_process/committer_request.html.

Example 2 – Self Service Membership Pages

- Membership pages have been through an upgrade!

The screenshot shows a Firefox browser window displaying the Eclipse Membership page at <http://www.eclipse.org/membership/exploreMembership.php>. The page has a dark blue header with the Eclipse logo and a navigation menu with tabs: Home, Community, **Membership**, Committers, Downloads, Resources, and Projects. On the left, there's a sidebar with links like Committers, Newsgroups, Bugs, Articles, Membership (with a dropdown), Explore Members, Become A Member, and Members FAQ. The main content area features three sections: "By Membership Type...", "Alphabetically...", and "By Eclipse Project Relevance...".

By Membership Type...

STRATEGIC MEMBERS	ADD-IN PROVIDER MEMBERS	ASSOCIATE MEMBERS
--------------------------	--------------------------------	--------------------------

Alphabetically...

A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	V	W	Z
---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---

By Eclipse Project Relevance...

AJDT	CDT	DTP	Equinox	RAP
ALF	Dali JPA Tools	ECF	GEF	SOA Tools
Aperi	DLTK	Eclipse Platform	GMF	Subversive
ATF	DSDP	EMF	Higgins	TPTP
BIRT	DSDP DD	EMFT	MDT	VTP
Buckminster	DSDP TM	EPP	Mylyn	WTP

By Industry...

Ajax	Configuration Management	Java EE 6	Reporting	Source Control
App Server	Consulting	Linux	Rich Client Platform	Storage Management
Application Lifecycle	Database	Network Management	Rich Internet Applications	Subversion

Example 2 – Self Services Membership Pages

- Search by Industry, Project, Membership level or Alphabetically:

The screenshot shows a Mozilla Firefox browser window displaying the Eclipse Membership website at <http://www.eclipse.org/membership/showMembersWithTag.php?TagID=5>. The page title is "Eclipse Membership - Mozilla Firefox". The main navigation menu includes Home, Community, Membership (which is selected), Committers, Downloads, Resources, and Projects. A sidebar on the left provides links to Committers, Newsgroups, Bugs, Articles, Membership, Explore Members, Become A Member, and Members FAQ. The central content area displays a list of members contributing to or shipping products based on WTP. The first member listed is BEA, followed by eteration, IBM, and NOKIA. A sidebar on the right lists other project tags such as AJDT, ALF, Aperi, ATF, BIRT, Buckminster, CDT, and Dali JPA Tools. A "Explore" section at the bottom right offers links to Explore All Members and Explore.

Example 2 – Self Services Membership Pages

- A members page is integrated with EPIC and can contain external HTML to integrate with your site...

The screenshot shows a Mozilla Firefox browser window displaying the Eclipse Membership page for BEA Systems, Inc. The URL in the address bar is http://www.eclipse.org/membership/showMember.php?member_id=653. The page title is "BEA". The main content area features the BEA logo and the tagline "Think liquid.". Below the logo, there is a brief description of BEA Systems, Inc., mentioning it is a world leader in enterprise infrastructure software, helping companies improve business responsiveness through service-oriented architecture (SOA). It also notes that BEA has 75 offices in 36 countries and provides products like BEA Workshop Studio and WebLogic. A sidebar on the right is titled "Related Tags" and lists categories such as WTP, App Server, ISV, Training, SOA, Java EE 5, Eclipse Platform, and Other Strategics. Another sidebar titled "Interact" includes links to Explore All Members, Suggest More Tags for BEA, and Edit This Page. At the bottom of the page, there is a section titled "BEA's EPIC Listings" which contains a list of products, starting with BEA Workshop Studio v3.3.

Example 2 – Self Services Membership Pages

The challenge is – how do members edit their page in real time?

Example 2 – Self Services Membership Pages

- The Foundation Portal!

Example 2 – Self Services Membership Pages

■ Mike Taylor's Portal Page

A screenshot of a web browser window titled "My Foundation - Mozilla Firefox". The address bar shows "My Foundation". The page content is a user profile for "Mike Taylor".

The top navigation bar includes links for HOME, COMMUNITY, MEMBERSHIP, COMMITTERS, DOWNLOADS, RESOURCES, PROJECTS, and ABOUT US, along with a SEARCH field and a Log out button.

The main content area displays three sections of contact information:

- Mike Taylor Address**
 - Address 1: Instantiations, Inc. [edit]
 - Address 2: 200 - 19101 SW Boones Ferry Rd.
 - City: Portland
 - State/Province: OR
 - Postal Code: 97224
 - Country: United States
 - Phone: 503.598.4911
 - Fax: 503.684.8355
 - Email: mike_taylor@instantiations.com
- Instantiations, Inc. Address**
 - Address 1: 18101 SW Boones Ferry Road [edit]
 - Address 2: Suite 200
 - City: Portland
 - State/Province: OR
 - Postal Code: 97224
 - Country: United States
- Instantiations, Inc. Contacts**
 - Board Member: Mike Taylor [edit]
 - General Contact: Mike Taylor
 - Accounting Contact: Mike Taylor
 - Marketing Contact: Mark Johnson
 - Delegate: Mark Johnson
 - [add_contact]

Example 2 – Self Services Membership Pages

- Mike edits Instantiations's Membership page in the portal:

A screenshot of a Mozilla Firefox browser window titled "My Foundation - Mozilla Firefox". The page displays the membership information for "Instantiations, Inc." under the "My Foundation" tab. The interface is divided into sections: "General Contact", "Instantiations, Inc. Information", and "Eclipse Plugin Central (EPIC) Information".

General Contact: Mike Taylor [edit], Delegate: Sharon Wolfe [add_contact]

Instantiations, Inc. Information

- Short Description:** Instantiations is a leading provider of software products, services & technologies for Eclipse, Java and Smalltalk.
- Long Description:** Instantiations delivers products and services that assist developers in building and deploying high performance Java and Smalltalk software systems. For more than 20 years, our team has helped Fortune 500 companies, software product companies, and individuals reap the benefits of leading edge object-oriented software technology.
- Company URL:** <http://instantiations.com/>
- Small Logo:** [change]
- Large Logo:** [change]

Eclipse Plugin Central (EPIC) Information

- Short Description:** test [edit]
- Long Description:** test2
- Company URL:**
- Small Logo:** [change]
- Large Logo:** [change]

At the bottom of the page, there is a navigation bar with links to Home, Privacy Policy, Terms of Use, Contact, and Logout, along with a copyright notice: "Copyright © 2007 The Eclipse Foundation. All Rights Reserved."

Example 2 – Self Services Membership Pages

- Resulting in his updated page on eclipse.org in real time:

The screenshot shows a Mozilla Firefox browser window displaying the Eclipse Membership website. The URL in the address bar is <http://eclipse.org/membership>. The page title is "Eclipse Membership". The navigation menu at the top includes Home, Community, Membership (which is selected), Committers, Downloads, Resources, Projects, and About Us. On the left, a sidebar menu under "Membership" lists: Committers, Newsgroups, Bugs, Articles, Current Members, Strategic Members, Add-in Provider Members, and Associate Members. The main content area features the logo and name "instantiations" (with a red swoosh). Below it, the text "Instantiations, Inc." and "Eclipse Add-in Provider Member" is displayed. A paragraph describes Instantiations's products and services, mentioning Java and Smalltalk software systems. Another paragraph highlights their history and partnerships with Fortune 500 companies. A section titled "Instantiations, Inc.'s EPIC Listings" contains brief descriptions of four products: CodePro Build v2.3.3, CodePro Express v2.3.3, CodePro Agility v2.3.3, and CodePro Advisor v2.3.3. To the right, a "Related Members" sidebar lists "Add-in Provider, IDE, Smalltalk, ISV, I, Ajax, EPP" and an "Explore" sidebar lists "Explore Members" and "Suggest Tags for Instantiations, Inc.". The overall design is professional with a blue and white color scheme.

Some things the Portal can already do:

- Committers
 - IPZilla and Bugzilla status
 - Run Committer Elections
 - Project status and membership
- Organizations
 - Update Organization Address
 - Update Organization Contacts
 - Update Membership Page
- Both
 - Conference Call Information
 - Update personal contact information

Save the Date: Members Meeting in Chicago

- Wednesday, September 19
 - New Members Introduction (AM)

TROLLTECH®
Qt Jambi

A Brief Introduction
Eivind Throndsen, Product Manager

What is Qt Jambi?

What is Qt Jambi?

Qt Jambi is Qt... just Qt for Java

- Brings all the benefits of Qt to Java development
- Qt Jambi includes the following components:
 - The Qt Jambi API
 - Qt Designer for Jambi
 - Qt Linguist for Jambi
 - Eclipse Integration

Why Qt Jambi?

- ⊕ For organizations developing high performance, rich-client applications with Java, Qt Jambi:
 - ⊕ Increases development efficiency
 - ⊕ Delivers added freedom & flexibility
 - ⊕ Provides the assurances of a mature, proven framework

The Qt Jambi API

Qt Jambi Generator

⌚ Uniting C++ and Java

- ⌚ Reads C++ class definitions and maps to an equivalent Java API
- ⌚ Uses the Java Native Interface to communicate between Qt and Java
- ⌚ Provides access to productivity-enhancing Qt functions from Java

Qt Jambi Eclipse Integration

- ➊ Leverage Qt Jambi features from within Eclipse
 - ➊ Code completion and syntax highlighting
 - ➋ Integrated Qt Designer
 - ➋ Integrated Java User Interface Compiler
 - ➋ Qt Jambi documentation integrated into Eclipse help system

Introducing Ingres

A Tour of the Ingres
Eclipse Integration Project

Ingres Eclipse Functionality

- **Browse, Edit and View Database Objects in an industry standard IDE**
- **Ad Hoc SQL Querying**
- **Stored Procedures – write, edit, debug, execute**
- **Before and after triggers**
- **Example application for Ingres users who are new to Eclipse**

Ingres Plug-in Overview

Sample Application for Ingres

The View from 25B

A Blog by Emma McGrattan, SVP of Engineering
